Data Visualization

A graph or picture that helps humans understand important patterns in the dataset. eg:

	White families	Black families	Latino families
Higher income	Years in Each Quintile (across 4,784 families)	Years in Each Quintile (across 2,716 families)	Years in Each Quintile (across 467 families)
	22%	7%	12%
	27%	17%	20%
	25%	25%	28%
	17%	27%	26%
Lower income	9%	23%	14%

Note: Asian, Native American, and multiracial families are not shown in the charts above due to small sample sizes.
